Crisis in Turkey: Aggravating a segmented labour market and creating new inequalities 13. Social impact of the crisis in the United Kingdom: Focus on gender and age inequalitiesIndex
Sommario/riassunto	Since the successive crises erupted, the increase in inequality has not been addressed. This important publication offers a comprehensive

overview of recent developments in the workplace. It will help to promote a different policy agenda that is desperately needed to overcome the causes and consequences of the crisis, namely addressing work inequalities.' -Philippe Pochet, Catholic University of Louvain la Neuve, Belgium, and General Director of the European Trade Union Institute (ETUI), Brussels, Belgium
