| Nota di contenuto | Contextualizing the hoofprint: global environmental change and inequality -- The uneven geography of meat -- The industrial grain-oilseed-livestock complex -- Confronting the hoofprint: towards a sustainable, just, and humane world. |
| Sommario/riassunto | The Ecological Hoofprint is a rigorous and eye-opening explanation of how industrial livestock production is driving the exploding global consumption of meat, which is implicated in momentous but greatly under-appreciated problems. Tony Weis, author of the ground-breaking The Global Food Economy, shows what this means for the health of the planet, how it contributes to worsening human inequality, and how it constitutes a profound but invisible aspect of the violence of everyday life. |

Sommario/riassunto

This book sets out a clear and logical framework for the teaching of reading throughout different age groups, whereby systematic progression can be developed within a structured framework. A detailed set of recommendations are offered and are both illustrated and justified, for the teacher to examine and use. Much has been written about the importance of skilled and efficient reading and language usage in the early years of education, but all too few teachers are aware of the need for the development of reading skills in an ordered sequence with older children as well. Problems such
