

1. Record Nr.	UNINA9910779351603321
Autore	Dahllof Ingela
Titolo	Analysis, fate and toxicity of zinc- and copper pyrithione in the marine environment [[electronic resource] /] / Ingela Dahllof ...[et. al.]
Pubbl/distr/stampa	Copenhagen, : Nordic Council of Ministers, 2005
Descrizione fisica	1 online resource (36 p.)
Soggetti	Paint - Environmental aspects Marine pollution
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	""Contents""; ""Preface""; ""Summary""; ""1. Introduction""; ""1.1 Background""; ""1.2 Chemical Properties of ZnPT2 and CuPT2""; ""1.3 Mode of Action of ZPT and CPT""; ""1.4 Toxicity of ZPT and CPT""; ""2. Aims and Approach""; ""2.1 Development of the Analytical Method""; ""2.2 Fate experiments""; ""2.2.1 Photodegradation""; ""2.2.2 Transchelation of ZPT""; ""2.2.3 Leaching Experiments""; ""2.2.4 Fate of ZPT in a Mesocosm Experiment""; ""2.3 Effects on ZPT and CPT on Marine Communities""; ""2.3.1 Direct Effects""; ""2.3.2 Effect of ZPT and CPT on communities in mesocosms""
