Sommario/riassunto	The book explores the current role of nationality from the point of view of international law, reassessing the validity of the 'classical', state- centered, approach to nationality in light of the 'new' role the human

being is gradually acquiring within the international legal order. In this framework, the collection assesses the impact of international human rights rules on the international discourse on nationality and explores the significance international (including private international) law attaches to the links individuals may establish with states other than that of nationality. The
