It covers the whole of Europe including Russia and Turkey. The text divides into several clearly defined sub-periods: the impact and aftermath of the first world war

and recovery and reconstruction during the 1920s; the depression and

the recovery of the 1930s; the impact of the second world war and the new political division in Europe; the post-war boom of the 1950s and 1960s and then into the growth slowdown of the 1970s
