Economic Analysis of Institutional Change in Ancient Athens - The Past Meets the Present -- Glossary -- Notes -- Bibliography -- Index of Passages Cited -- Index.
Sommario/riassunto	This book presents an economic analysis of the causes and consequences of institutional change in ancient Athens. Focusing on the period 800-300 BCE, it looks in particular at the development of political institutions and taxation, including a new look at the activities of individuals like Solon, Kleisthenes and Perikles and on the changes in political rules and taxation after the Peloponnesian War.
