

1. Record Nr.	UNINA9910779493503321
Titolo	Dimorphic fungi [[electronic resource] ] : their importance as models for differentiation and fungal pathogenesis // edited by Jose Ruiz-Herrera
Pubbl/distr/stampa	[Dubai, United Arab Emirates], : Bentham eBooks, [2012]
Descrizione fisica	1 online resource (150 p.)
Altri autori (Persone)	Ruiz-HerreraJose
Disciplina	615.7/92 615.792
Soggetti	Pathogenic fungi Medical mycology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Cover; Tile; EUL; Dedication; Contents; Foreword; Preface; List of Contributors; Chapter 01; Chapter 02; Chapter 03; Chapter 04; Chapter 05; Chapter 06; Chapter 07; Chapter 08; index
Sommario/riassunto	This e-book includes several chapters on the most important and studied fungal models, written by specialists, discussing the biology of each species or genera, the general aspects controlling their dimorphic transition, the molecular aspects involved, the use of them as models for understanding the bases of biochemical and cell differentiation, and the importance of dimorphism in pathogenesis.

2. Record Nr.	UNINA9910785127603321
Autore	Benamer Sarah
Titolo	Telling stories? : attachment-based approaches to the treatment of psychosis / / Sarah Benamer
Pubbl/distr/stampa	[London] : , : Routledge, , 2019

Disciplina	616.89 616.89/1656
Soggetti	Psychoses Psychoses - Treatment
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	First published 2010.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Cover; Copyright; Contents; Acknowledgements; Contributors; Chapter One: Telling stories? Attachment-based approaches to the treatment of psychosis; Chapter Two: A brief history of psychosis, its politics and why genetics is a cop-out; Chapter Three: Never let the truth get in the way of a good story; Chapter Four: The personal is political; Chapter Five: Can attachment theory help explain the relationship between childhood adversity and psychosis?; Chapter Six: Truth is stranger than fiction-what happens to the story when no-one wants to know Chapter Seven: In bits: Hearing the fragmented narratives of people who experience psychosisChapter Eight: Interprofessional collaboration: Achieving integrated care in mental health services; Appendix
Sommario/riassunto	Telling Stories? explores the contemporary state of affairs in the understanding and treatment of psychosis. An inclusive approach to mental distress requires that in order to truly understand psychosis we must begin by listening to those who know this from the inside out; the voices and narrative of those who have been condemned as

"unanalysable" and mad. Far from being fantastical, the complex stories that are being articulated communicate painful truths and the myriad ways in which the human psyche survives overwhelming trauma. This book is the culmination of an integrated and creative alliance between those on the cutting edge, experientially, in research, diagnosis, and treatment; this multidisciplinary dialogue proposes a new relational and attachment orientated paradigm for the 21st century. In contrast to the containment model that is currently favoured, this advocates listening and talking therapies, and the healing power of a loving relationship, offering those with psychosis the possibility of more nourishing engagement with the world.
