your data; Writing up your study; Sample projects; References; Index

Sommario/riassunto

Language and Identity in Englishes examines the core issues and
debates surrounding the relationship between English, language and
identity. Drawing on a range of international examples from the UK, US,
China and India, Clark uses both cutting-edge fieldwork and her own
original research to give a comprehensive account of the study of
language and identity. Key features include:Discussion of language in
relation to various aspects of identity, such as those connected with
nation and region, as well as in relation to social aspects such as social
class a
