Being in practice : working with the issues faced by real clients with acquired brain injuries living in the real world. assessment in specific contexts -- pt. 3. Working with professional and organisational systems -- pt. 4. Making sense of it all : reflections and insights.
Sommario/riassunto	The book aims to acknowledge the complexity of working with clients who have an acquired brain injury but aims to give the interested reader practical and useable guides to develop their practice. Throughout the text, case studies and practical suggestions are forwarded to facilitate do-able practice. It is hoped that the book will become a gold standard in this particular area and is aimed at a range of professionals in training (for those responsible providing training in

psychopathology, neuropsychology and psychotherapy), and those who have an interest in working with the issues commonly seen post acute brain injury rehabilitation settings.
