1. Record Nr. UNINA9910779646903321

Titolo	HDL and LDL cholesterol [[electronic resource]] : physiology and clinical significance / / Irwin S. Pagano and Nathan B. Strait, editors
Pubbl/distr/stampa	New York, : Nova Biomedical Books, c2009
ISBN	1-60876-728-0
Descrizione fisica	1 online resource (242 p.)
Collana	Biochemistry research trends series
Altri autori (Persone)	PaganoIrwin S StraitNathan B
Disciplina	572/.68
Soggetti	High density lipoproteins - Physiological effect High density lipoproteins - Pathophysiology Low density lipoproteins - Physiological effect Low density lipoproteins - Pathophysiology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Cost-effectiveness of pharmacological therapies to reduce LDL-cholesterol levels / Pedro Plans-Rubio -- Mechanisms for oxidative modification of LDL by cigarette smoking : new insight into potential implications for atherosclerosis / Yu Yamaguchi, Jun Haginaka, and Masaru Kunitomo -- Selective LDL apheresis reduced on plasma concentrations of adhesion molecules / Kouichi Utsumi, Kae Ueda, and Yasuo Katayama -- Pleiotropic effects of atorvastatin on vascular injury in diabetes / Sho-ichi Yamagishi ... [et al.] -- Antibodies to oxidatively modified LDL and atherosclerosis / Ulrike Resch, Franz Tatzber -- Overview of longevity-associated mitochondrial DNA 5178 C/A polymorphism and a discussion of its modulation of the effects of habitual smoking on serum total and LDL cholesterol levels in middle-aged Japanese men / Akatsuki Kokaze ... [et al.] -- Cholesterol-HDL levels and functionality of the HDL particle, its anti-inflammatory/antioxidant properties / M. Fito ... [et al.] -- The role of HDL-associated enzymes in bovine reproduction / Romana Turk -- HDL physicochemical characteristics as determinants of their plasma concentrations : what we have learned from thiazolidinediones / Oscar Perez-Mendez ... [et al.] -- High-density lipoproteins and coronary

heart disease HDLs : a heterogeneous and multi-functional lipoprotein class / Bela F. Asztalos and Katalin V. Horvath.
