Sommario/riassunto	Through a series of international case studies, the nature and the geographical implications of the development of multinational corporations is examined. The volume concentrates on the latter Post-War period of corporate restructuring and readjustment in response to world-wide recession in the mid-1980s. The volume is divided into two parts. In the first each of the chapters considers a particular aspect of the problem of how multinational corporations have developed. In the second part the chapters consider different aspects of the economic and social impacts of these corpor
