Sommario/riassunto

<P>Understanding how rhetoric, and environmental rhetoric in particular, informs and is informed by local and global ecologies contributes to our conversations about sustainability and resilience - the preservation and conservation of the earth and the future of human society. This book explores some of the complex relationships, collaborations, compromises, and contradictions between human endeavor and situated discourses, identities and landscapes, social justice and natural resources, movement and geographies, unpacking and grappling with the complexities of rhetoric of presence.
