Nota di contenuto	Atheisms Today -- The God of Metaphysics -- The God of the Poets -- Difficult Atheism -- Beyond A/theism? Quentin Meillassoux -- The Politics of the Post-Theological I: Justifying the Political -- The Politics of the Post-Theological II: Justice -- General Conclusion: How to Follow an 'Atheism' That Never Was.
Sommario/riassunto	Difficult Atheism shows how contemporary French philosophy is rethinking the legacy of the death of God in ways that take the debate beyond the narrow confines of atheism into the much broader domain of post-theological thinking. Christopher Watkin argues that Alain Badiou Jean-Luc Nancy and Quentin Meillassoux each elaborate a distinctive approach to the post-theological but that each approach still struggles to do justice to the death of God.

Sommario/riassunto	"This book presents an overview of the phenomenon and handling of academic misconduct. After introducing a brief historical background, it discusses contemporary circumstances that affect the nature and frequency of academic misconduct. It then details the phases of misconduct discovery and investigation: detection, analysis, assessment, reporting, and institutional handling. The final chapter deals with prevention. The book focuses on concrete cases, showing the complexities and ambiguities in dealing with presumed academic misconduct. The book also provides practical advice to both whistle-blowers and those accused of academic misconduct." "The book pays special attention to plagiarism, one of the most frequent but also most complex forms of academic misconduct. It analyzes the various degrees of possible plagiarism, detection techniques, challenges in proving plagiarism, and denial tactics. It also offers advice on how to report and handle cases of alleged plagiarism, both by students and by professionals."--Jacket.
