	Sommario/riassunto	Gestures are ubiquitous and natural in our everyday life. They convey information about culture, discourse, thought, intentionality, emotion, intersubjectivity, cognition, and first and second language acquisition. Additionally, they are used by non-human primates to communicate with their peers and with humans. Consequently, the modern field of gesture studies has attracted researchers from a number of different disciplines such as anthropology, cognitive science, communication, neuroscience, psycholinguistics, primatology, psychology, robotics, sociology and semiotics. This volume presents a

	Sommario/riassunto	What is desert? The aim of this book is to give an analysis of this notion. Starting from Feinberg's seminal paper, the argument goes on to Chisholm, 18th-century British Rationalism, and Kant, who developed the concept of propriety that is the foundation of the concept of desert and the key to understanding it. Beyond the analysis, the concept of desert is applied to two problems of moral philosophy, punishment and moral residue, that can be solved only by means of this notion. Desert is an indispensable moral concept we do well to understand clearly and to incorporate into our moral practice
