| Livello bibliografico   | Monografia   |
| Note generali           | Title from publisher's bibliographic system (viewed on 05 Oct 2015).   |
| Nota di bibliografia    | Includes bibliographical references (p. 188-217) and index.  |
| Nota di contenuto       | Cover; Half-title; Title; Copyright; Contents; Preface; Chapter 1 Overview: perspectives on grassland systems; Chapter 2 The emergence of grassland systems; Chapter 3 Generation; Chapter 4 Vegetative growth; Chapter 5 Flowering and seed production; Chapter 6 Mineral nutrition; Chapter 7 Herbage quality and animal intake; Chapter 8 Grassland...animal interactions and management; Chapter 9 Grassland systems design; References; Index |
| Sommario/riassunto      | The challenges facing grassland agronomists are becoming increasingly complex, with environmental and ethical issues assuming a greater significance alongside more conventional technical aspects. This new expanded edition, with an increased emphasis on systems thinking, has been revised to reflect current concerns, knowledge and practice. As  |

such it addresses the need for a different approach to grassland agronomy, providing novel and provocative material to instruct, stimulate and enthuse the reader.
