Making Sense:

Knowledge and Understanding; 10. Presence and Representation; 11. Epilogue; Appendix: Expeditions; Notes; Bibliography; Index

Sommario/riassunto

Explorers and ethnographers in Africa during the period of colonial expansion are usually assumed to have been guided by rational aims such as the desire for scientific knowledge, fame, or financial gain. This book, the culmination of many years of research on nineteenth-century exploration in Central Africa, provides a new view of those early European explorers and their encounters with Africans.
