

1. Record Nr.	UNINA9910780126503321
Autore	Hyde Randall
Titolo	The art of assembly language [[electronic resource] /] / by Randall Hyde
Pubbl/distr/stampa	San Francisco, : No Starch Press, 2003
ISBN	1-59327-080-1
Edizione	[1st edition]
Descrizione fisica	1 online resource (926 p.)
Disciplina	005.13/6
Soggetti	Assembler language (Computer program language) Programming languages (Electronic computers)
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di contenuto	Contents; Hello, World of Assembly Language; Data Representation; Memory Access and Organization; Constants, Variables, and Data Types; Procedures and Units; Arithmetic; Low Level Control Structures; File; Advanced Arithmetic; Macros and the HLA Compile Time Language; Bit Manipulation; The String Instructions; The MMX Instruction Set; Classes and Objects; Mixed Language Programming; ASCII Character Set; The 80x86 Instruction Set; Index
Sommario/riassunto	Presents assembly language from the high-level programmer's point of view, so programmers can start writing meaningful programs within days. The CD includes the author's High Level Assembler (HLA), the first assembler that allows programmers to write portable assembly language programs that run under either Linux or Windows with nothing more than a recompile.
