1. Record Nr.   UNINA9910780126903321

   Autore   Cerven Pavol

   Titolo   Crackproof your software [[electronic resource]] : the best ways to
                      protect your software against crackers / / Pavol Cerven

   Pubbl/distr/stampa San Francisco, : No Starch Press, c2002

   ISBN   1-59327-022-4

   Descrizione fisica 1 online resource (270 p.)

   Disciplina   005.8

   Soggetti   Software protection
                      Computer security
                      Data protection
                      Computer crimes

   Lingua di pubblicazione Inglese

   Formato   Materiale a stampa

   Livello bibliografico Monografia

   Note generali   Description based upon print version of record.

   Nota di contenuto CONTENTS; Cracking Tools; The Basic Types Of Software Protection; Cd
                      Protection Tricks; Program Compression And Encoding: Freeware And
                      Shareware; Commercial Software Protection Programs; Anti-debugging,
                      Anti-disassembling, And Other Tricks For Protecting Against Softice
                      And Trw; Protecting Against Breakpoints, Tracers, And Debuggers;
                      Other Protection Tricks; Important Structures In Windows; Suggestions
                      For Better Software Protection; Glossary; Index

   Sommario/riassunto This essential resource for software developers highlights the weak
                      points in ""well-protected"" software, shows how crackers break
                      common protection schemes, and how to defend against crackers.
                      Includes in-depth discussions of anti-debugging and anti-
                      disassembling. The CD-ROM contains compression and encoding
                      software, debuggers and anti-debugging tricks, practical protection
                      demonstrations, and extended examples from the book.
