	Sommario/riassunto	This volume represents a breakthrough discussion of the research issues surrounding innovative pedagogies. Using service-learning as its

focus, it explores ways in which researchers and evaluators can study a teaching and learning approach that has multiple goals, including both academic and affective development. The chapter authors show how to study a topic that is multilayered, complex, and involves the ways in which individuals make meaning of their experiences. Seven challenges that researchers need to grapple with in studying service-learning are identified and addressed: defini
