Maccoby on the Active Child: Gender Differences and Family Interactions; 17 Reply to Stattin-Kerr Critique
18 A Gender-Balanced Approach to the Study of Childhood Aggression and Reciprocal Family Influences
19 Child Effects as Family Process.

Sommario/riassunto

Any parent who has raised more than one child is likely to be keenly aware of subtle or even striking differences among their offspring. The central premise of this volume is that children bring personal qualities to their relationships with other family members that help shape family interaction, relationships, and even processes that family researchers have called "parenting." The chapters address how children's personal qualities make their mark on families in ways that may in turn influence children's subsequent development. The volume is based on the presentations and discussi
