Affordability; 6. Drug financing; 7. Supply systems; 8. Drug regulation; 9. Rational use of drugs; 10. Research; 11. Human resources development; 12. Monitoring and evaluation; References
Sommario/riassunto	In Europe today, HIV/AIDS prevention, treatment and care are needed more than ever. HIV incidence steady in western and central Europe, and dramatically increasing in eastern Europe remains a major challenge to public health in the 21st century. With more than two million people living with HIV/AIDS in the WHO European Region, no country has been spared. This book tells the story of HIV/AIDS in Europe from a broad variety of perspectives: biomedical, social, cultural, economic and political. The authors are leading experts from across the Region and include both the infected and the affected,
