

1. Record Nr.	UNINA9910780353503321
Titolo	Stable isotopes in human nutrition [[electronic resource]] : laboratory methods and research applications / / edited by S.A Abrams and W.W. Wong
Pubbl/distr/stampa	Wallingford ; ; New York, : CABI, c2003
ISBN	1-280-86608-X 9786610866083 0-85199-796-1
Descrizione fisica	1 online resource (192 p.)
Altri autori (Persone)	AbramsS. A (Steven A.) WongW. W (William W.)
Disciplina	613.2072
Soggetti	Nutrition - Research Stable isotope tracers
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Contents; Contributors; Acknowledgements; 1 Introduction; 2 Production of Stable Isotopes for Nutrition-related Research; 3 The Measurement of Protein Kinetics with Stable Isotope Tracers; 4 Stable Isotope Studies of Mineral Metabolism: Calcium, Magnesium and Iron; 5 Evaluation of Trace Mineral Status and Bioavailability Using Stable Isotopes (Zinc, Copper, Selenium, Molybdenum); 6 Energy Utilization with Doubly Labelled Water (2H2 18O); 7 Body Composition Measurements with 2H and 18O Isotope Dilution 8 Stable Isotopes and Gas Chromatography-Mass Spectrometry in Studies of Glucose Metabolism in Children9 Cholesterol and Other Lipid Metabolism; Index
Sommario/riassunto	Designed as a laboratory handbook of methods used to perform stable isotope studies in humans, this book covers basic principles, dosage information, sample preparation procedures, analytical instrumentation and necessary mathematical methods.
