Sommario/riassunto

Civil war conflict is a core development issue. The existence of civil war can dramatically slow a country's development process, especially in low-income countries which are more vulnerable to civil war conflict. Conversely, development can impede civil war. When development succeeds, countries become safer-when development fails, they experience a greater risk of being caught in a conflict trap. Ultimately, civil war is a failure of development.'Breaking the Conflict Trap' identifies the dire consequences that civil war has on the development process and offers three main findings. First, ci
