Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Buddhist psychology / Andrew Olendzki Close encounters of a new kind / Jeffrey B. Rubin The Buddha teaches and attitude, not an affiliation / Belinda Siew Luan Khong On being a non-Buddhist Buddhist / Seth Robert Segall Finding the Buddha/finding the self / Jean L. Kristeller Awakening from the spell of reality / Kaisa Puhakka Reflections on mirroring / Robert Rosenbaum Psychotherapy practice as Buddhist practice / Seth Robert Segall Buddhism and western psychology / Eugene Taylor
Sommario/riassunto	"Creatively exploring the points of confluence and conflict between Western psychology and Buddhist teachings, various scholars, researchers, and therapists struggle to integrate their diverse psychological orientations - psychoanalytic, humanistic, cognitive-behavioral, transpersonal - with their diverse Theravada and Mahayana Buddhist practices. By investigating the degree to which Buddhist insights are compatible with Western science and culture, they then consider what each philosophical/psychological system has to offer the other. The contributors reveal how Buddhism has changed the way they practice psychotherapy, choose their research topics, and conduct their personal lives. In doing so, they illuminate the relevance of ancient

Buddhist texts to contemporary cultural and psychological dilemmas."
