	Sommario/riassunto	This series consists of books arising from the intellectual work of ECCR members. The globalisation of social, cultural and economic relations is facilitated, and at the same time conditioned by developments in the

information and communications technologies (ICT) and infrastructure. Human knowledge brought mankind from an oral to a literate culture, thanks to the invention of the print media. The development of the electronic media in the last century paved the path for the information age, in which spatial and temporal constraints are lifted. "In every society, the production, distribution,
