The Identity of the Human and the Divine in the Logic of Speculative Philosophy / Jeff Mitscherling. ; 7. The Final Name of God / David Kolb. ; 8. Hegel's Open Future / John W. Burbidge.
Sommario/riassunto	"Georg Wilhelm Friedrich Hegel (1770-1831) is considered a philosopher of the Tradition, both in the sense that his work is rooted in the political, artistic, religious, and philosophical traditions of European culture and in the sense that he takes up the notion of tradition as an object of philosophical investigation. This collection examines Hegel's philosophy as it bears on the meaning and relevance of tradition - historical, legal, aesthetic, religious, and philosophical. The thirteen original essays draw upon and celebrate the work of H.S. Harris, who is considered by many to be the most influential interpreter

of Hegel in the English-speaking world."--Jacket.
