Note generali	Description based upon print version of record.
Sommario/riassunto	The competence-based perspective on strategy and management offers an integrative approach to strategy and management theory, research, and practice. Nearly two decades of research, theory development, and application have demonstrated the theoretical coherence, researchability, and practicability of a fundamental focus on organizational competences. The competence-based perspective is now providing a productive broad church for advancing theory development, research, and practice in both strategic and general management. In the twenty-first century, network-based strategies and processes are b
