Is Kant a Western Philosopher? -- 64. The Unity of Architectonic Reasoning in Kant and I Ching -- Backmatter

Sommario/riassunto

Authors from all over the world unite in an effort to cultivate dialogue between Asian and Western philosophy. The papers forge a new, East-West comparative path on the whole range of issues in Kant studies. The concept of personhood, crucial for both traditions, serves as a springboard to address issues such as knowledge acquisition and education, ethics and self-identity, religious/political community building, and cross-cultural understanding. Edited by Stephen

Palmquist, founder of the Hong Kong Philosophy Cafe and well known
for both his Kant expertise and his devotion to fostering philosophy
