Sommario/riassunto

Containing ten quality chapters on China's rural reforms and agricultural development, this first volume from the Series on Developing China: Translated Research from China emphasizes the importance of countryside, agriculture and the role of peasants in China's economy. While the Chinese revolution has traveled a path of "encircling the cities from the rural areas", Chinese reforms were likewise started in promoting the household contract responsibility system in the rural areas - the majority of its population living in the countryside makes it the focus of the reforms. Such structural issue
