Peiris -- Government-donor partnerships : Mozambique as a model of donor coordination / Felix Fischer, Emmy Bosten, and Victor Lledo -- Managing mineral resources : from curse to blessing / Julien Hartley and James Otto -- Strengthening Mozambique's business environment : diagnostics, strategies, and outcomes / Victor Lledo -- Export performance and competitiveness in Mozambique / Magnus Saxegaard.
Sommario/riassunto	Mozambique is an economic success story in sub-Saharan Africa (SSA). Its remarkable achievements offer valuable lessons to other low-income countries in a post-stabilization economic phase, including how they can efficiently manage a scaling up of foreign aid aimed at poverty reduction. Of special interest to other sub-Saharan countries are the book's discussions of Mozambique's progress toward consolidating macroeconomic and financial stability, and the challenges it faces in ensuring long-term sustainability, creating a virtuous cycle of natural resource use, and implementing second-generation structural reforms to sustain its growth. This book also provides a summary of the most recent research on issues related to post-stabilization economics in SSA.
