

1. Record Nr.	UNINA9910780901903321
Titolo	Materials issues in a hydrogen economy [[electronic resource] ] : proceedings of the international symposium, Richmond, Virginia, USA, 12-15 November 2007 // editors, Puru Jena, Anil Kandalam, Qiang Sun
Pubbl/distr/stampa	Singapore ; ; Hackensack, NJ, : World Scientific, c2009
ISBN	1-282-44299-6 9786612442995 981-283-802-3
Descrizione fisica	1 online resource (375 p.)
Altri autori (Persone)	JenaP KandalamAnil SunQi'ang
Disciplina	620.11
Soggetti	Hydrogen as fuel Hydrogen - Industrial applications
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	"an 'International Symposium on Materials Issues in a Hydrogen Economy' was held in Richmond, Virginia, from November 12-15, 2007."--P. v.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Preface; CONTENTS; Overview; Hydrogen Production; Hydrogen Storage; Fuel Cells; Safety and Education; Scientific Program; Organization; Participants; Author Index
Sommario/riassunto	This proceedings of the International Symposium on Materials Issues in a Hydrogen Economy addresses fundamental materials science issues and challenges concerning the production, storage, and use of hydrogen. The volume also deals with safety and education issues. The contributors - researchers in physics, chemistry, materials science, and engineering - share their ideas and results to delineate outstanding materials problems in a hydrogen economy and to guide the future research.
