Vaccine-Preventable Diseases; J. Infectious Disease Elimination and Eradication; K. Bioterrorism and Biological Warfare; Appendix: World Health Organization (WHO) Regions; Glossary; Bibliography; Index
Sommario/riassunto	This statistical handbook is designed to offer students, researchers, practitioners, and the general adult population a comprehensive statistical overview of the status of infectious disease worldwide. The availability of this information has increased dramatically on the Internet, yet the data are often too extensive, hard to find, or difficult to interpret. A carefully selected array of tables and charts present authoritative statistical information, placing valuable statistics into context with introductory text. Detailed source information in each table, figure, and chart allows the user
