Sommario/riassunto	Promoting women's economic empowerment is increasingly seen as one of the most important driving forces behind economic growth and the fight against poverty. Women's economic participation as entrepreneurs, employees, and leaders is recognized as a measure of a country's dynamism and viability. This main goal of this volume is to

provide fresh thinking on how to solve common issues women entrepreneurs and employees face in the investment climate area. It presents actionable, practical, replicable, and scalable tools to promote gender-sensitive investment climate reforms that would equally benef
