Includes bibliographical references (p. [284]-300) and index. Nota di bibliografia Part A Frameworks for using evidence; 6 Scenario analysis for strategic Nota di contenuto thinking 116; Gary Saliba and Glenn Withers; Part B Gathering and analysing evidence; Past, present, and possible futures for evidencebased policy: Frameworks for using evidence: A practical guide to costbenefit analysis; Multi-criteria analysis; Economic modelling and forecasting; Scenario analysis for strategic thinking; Gathering and analysing evidence; Using consultants to gather evidence; Sources and uses of secondary data; A user's guide to sample surveys; Qualitative research methods; References Sommario/riassunto The need to base policy on evidence has placed pressure on decisionmakers to support proposals with well-grounded research and information. However, no practical guide with a focus on public sector policy and decision-making for doing this exists. This edited text fills the gap by providing a practical and comprehensive manual for people working in policy areas. It is aimed at practitioners with little or no

experience in research and analysis but who require skills in managing, assessing and critically evaluating evidence use in the public sector.
