Sommario/riassunto	Featuring Powderfinger, Kylie, The Presets, The Drones, Silverchair, Jet, INXS, Sarah Blasko, Eskimo Joe, The Veronicas, The Living End, Australian Crawl, You Am I, Delta Goodrem and many more, Playlisted takes the pulse of Australian rock'n'roll with a series of short, sharp chapters from leading music journalist Craig Mathieson. Smart, opinionated, funny and often controversial, each chapter launches from a single significant track on an illuminating musical journey - into an underrated album or an overrated career. It's neither encyclopaedic nor heavy-handed, preferring to cut to the chase

Sommario/riassunto	Biodiversity conservation and poverty alleviation are both important societal goals demanding increasing international attention. While they may seem to be unrelated, the international policy frameworks that guide action to address them make an explicit assumption that conserving biodiversity will help to tackle global poverty. Part of the Conservation Science and Practice Series published with the Zoological Society of London, this book explores the validity of that assumption. The book addresses a number of critical questions: Which aspects of

biodiversity are of value
