| Sommario/riassunto | A new beginning for the environment must start with a new spiritual outlook. In this book, author Joanna Macy offers concrete suggestions for just that, showing how each of us can change the attitudes that continue to threaten our environment. Using the Buddha's teachings on Paticca Samuppada, which stresses the interconnectedness of all things in the world and suggests that any one action affects all things, Macy describes how decades of ignoring this principle has resulted in a self-centeredness that has devastated the environment. |
