TOWARD A THEORY OF LEA -- Appendix 1: Bitextual and Multitextual Works in Sanskrit -- Appendix 2: Bitextual and Multitextual Works in Telugu -- Notes -- References -- Index
Sommario/riassunto	Beginning in the sixth century C.E. and continuing for more than a thousand years, an extraordinary poetic practice was the trademark of a major literary movement in South Asia. Authors invented a special language to depict both the apparent and hidden sides of disguised or dual characters, and then used it to narrate India's major epics, the Ramayana and the Mahabharata, simultaneously. Originally produced in Sanskrit, these dual narratives eventually worked their way into regional languages, especially Telugu and Tamil, and other artistic media, such as sculpture. Scholars have long dismissed simultaneous narration as a mere curiosity, if not a sign of cultural decline in medieval India. Yet Yigal Bronner's Extreme Poetry effectively negates this position, proving

that, far from being a meaningless pastime, this intricate, "bitextual" technique both transcended and reinvented Sanskrit literary expression. The poems of simultaneous narration teased and estranged existing convention and showcased the interrelations between the tradition's foundational texts. By focusing on these achievements and their reverberations through time, Bronner rewrites the history of Sanskrit literature and its aesthetic goals. He also expands on contemporary theories of intertextuality, which have been largely confined to Western texts and practices.

4. Record Nr.	UNINA9910867393203321
Autore	Shalgi Ruth (Tel Aviv University, Israel)
Titolo	Fertilization // Ruth Shalgi
Pubbl/distr/stampa	London, : Henry Stewart Talks, 2019
Descrizione fisica	1 videorecording (53 min., 14 sec.) : sound, color
Collana	The female reproductive system : from basic science to fertility treatments, , 2056-452X
Disciplina	571.864
Soggetti	Conception Fertilization (Biology) Acrosome Reaction DNA Replication Embryonic Structures Fertilization - physiology Oocytes - physiology Ovum - physiology Sperm Transport Spermatozoa - physiology Sperm-Ovum Interactions - physiology
Lingua di pubblicazione	Inglese
Formato	Videoregistrazione
Livello bibliografico	Monografia
Note generali	Animated audio-visual presentation with synchronized narration. Title from title frames.

## Nota di contenuto

Contents: Sperm transport along the male tract -- Sperm transport along the female tract -- Capacitation and acrosome reaction -- Transport of oocytes to the fertilization site -- Penetration through the egg investments -- Recognition, binding and fusion of sperm to the oocyte membrane -- Activation of the oocyte and cortical reaction -- Resumption of the second meiotic division -- Pronuclear development and DNA replication -- Sperm contribution to the developing embryo.
