

1. Record Nr.	UNINA9910781028303321
Autore	Rodriguez-Gonzalez Federico Angel
Titolo	Biomaterials in orthopaedic surgery [[electronic resource] /] / Federico Angel Rodriguez-Gonzalez
Pubbl/distr/stampa	Materials Park, Ohio, : ASM International, 2009
ISBN	1-61503-129-4
Descrizione fisica	1 online resource (235 p.)
Soggetti	Biomedical materials Orthopedic implants
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	""Contents""; ""Foreword""; ""Preface""; ""Collaborators""; ""About the Author""; ""Introduction to Biomaterials in Orthopaedic Surgery ""; ""Structures of Solids and Phase Diagrams""; ""Types of Biomaterials in Orthopaedics""; ""Basic Principles of Biomechanics ""; ""Applications of Materials Testing ""; ""Selected Applications of Biomaterials in Orthopaedic Surgery""; ""Bone Allografts ""; ""Clinical Cases ""; ""Failures Modes of Implants ""; ""Determination of Composition at a Point in the Iron-Chromium-Nickel Ternary Phase Diagram at 650A° "" ""The Pythagorean Theorem and Natural Trigonometric Functions"""" International (SI) Units for Force, Area, and Stress""; ""Index""
