Sommario/riassunto	The collected wisdom of some of the world's most influential environmental movers and shakers is brought together in this one book. The chosen gurus consists both of "thinkers" - those who have set the agenda, and of "doers" - those business people who made the green cause their mission long before it became so prominent. The book covers a broad range of environmental issues as they apply to business, including the economic viability of choosing green routes. Interviewees include energy guru Amory Lovins, former Friends of the Earth Vice Chair Tony Juniper, diplomat Sir Crispin Tickell and b

Sommario/riassunto

Public spaces mirror the complexities of urban societies: as historic social bonds have weakened and cities have become collections of individuals public open spaces have also changed from being embedded in the social fabric of the city to being a part of more impersonal and fragmented urban environments. Can making public spaces help overcome this fragmentation, where accessible spaces are created through inclusive processes? This book offers some answers to this question through analysing the process of urban design and development in international case studies, in which the changing char
