15. Talk about old age, health and morality;
16. Exploring positive images of ageing: the production of calendars;
17. Gateways to humanistic gerontology; Index

Sommario/riassunto

How can we understand older people as real human beings, value their wisdom, and appreciate that their norms and purposes both matter in themselves and are affected by those of others? Using a life-course approach, this book argues that the complexity and potential creativity of later life demand a humanistic vision of older people and ageing.
