Sommario/riassunto	America values dissent. It tolerates, encourages and protects it. But what is this thing we value? That is a question never asked. 'Dissent' is treated as a known fact. For all that has been said about it - in books, articles, judicial opinions, and popular culture - it is remarkable that no one has devoted much, if any, ink to explaining what dissent is. No one has attempted to sketch its philosophical, linguistic, legal or cultural meanings or usages. There is a need to develop some clarity about this phenomenon, for not every difference of opinion, symbolic gesture, public activity in opposition to government policy, incitement to direct action, revolutionary effort or political assassination need be tagged dissent. In essence, we have no conceptual yardstick. It is just that measure of meaning that On Dissent offers.

3. Record Nr.	UNISALENTO991003684199707536
Autore	Levy-Bruhl, Lucien
Titolo	La mentalità primitiva / Lucien Levy-Bruhl ; con saggio di Giuseppe Cocchiara ; traduzione di Carlo Cignetti

#### Sommario/riassunto

Over the past few decades, there has been a growing concern about the social and environmental risks which have come along with the progress achieved through a variety of mutually intertwined modernization processes. In recent years these concerns are transformed into a widely-shared sense of urgency, partly due to events such as the various pandemics threatening livestock, and increasing awareness of the risks and realities of climate change, and the energy and food crises. This sense of urgency includes an awareness that our entire social system is in need of fundamental transformation. B
