

1. Record Nr.	UNINA9910781148603321
Autore	Jackson Peter Lawrence
Titolo	Getting design right : a systems approach / / Peter L. Jackson
Pubbl/distr/stampa	Boca Raton, Fla. : , : CRC Press, , 2010
ISBN	0-429-13097-X 1-4398-1116-4
Descrizione fisica	1 online resource (394 p.)
Disciplina	658.5/752
Soggetti	Industrial design New products Systems engineering
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Front cover; Acknowledgments; Contents; List of Figures; List of Tables; Chapter 1. Getting Design Right; Chapter 2. Define the Problem; Chapter 3. Measure the Need and Set Targets; Chapter 4. Explore the Design Space; Chapter 5. Optimize Design Choices; Chapter 6. Develop the Architecture ; Chapter 7. Validate the Design; Chapter 8. Execute the Design; Chapter 9. Iterate the Design Process; Appendix A: Case Studies; Appendix B: Product and Service Development Challenges; Appendix C: Use Case Behaviors for Toy Catapult; Index; Back cover
Sommario/riassunto	Filling a new need in engineering education, Getting Design Right: A Systems Approach integrates aspects from both design and systems engineering to provide a solid understanding of the fundamental principles and best practices in these areas. Through examples, it encourages students to create an initial product design and project plan. Classroom-tested and industry-reviewed, the text focuses on the steps of a basic design cycle. It first defines the problem, establishes technical requirements, and identifies the customer value proposition. The text then explores the design space, optimizes des
