Organised crime and crime scripts : prospects for disruption / Graham Hancock and Gloria Laycock -- 11. Policing mobile criminality :

towards a situational crime prevention approach to organised crime /  
Stuart Kirby and Sue Penna.

---

Sommario/riassunto

Situational crime prevention is the art and science of reducing opportunities for crime. Despite accumulating evidence of its value in reducing many different kinds of crime - such as burglary, fraud, robbery, car theft, child sexual abuse and even terrorism - little has previously been published about its role in reducing organised crimes. This collection of case studies, by a distinguished international group of researchers, fills this gap by documenting the application of a situational prevention approach to a variety of organised crimes. These include sex trafficking, money laundering, terrorism, cigarettes and other abuses.
