Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	pt. 1. Framework for environmental management -- pt. 2. Selected tools for environmental management -- pt. 3. Emerging environmental issues.
Sommario/riassunto	The 21st century qualifies as one in which humanity raised environmental decay, especially climate change, as a key global concern requiring urgent political attention. The book Framework and Tools for Environmental Management in Africa is written from this perspective. It provides researchers from different disciplines including environmental sciences, engineering, commerce, planning, education, agriculture and law, as well as NGOs, government officials, policy makers and researchers, with a platform to engage with concerns relating to sustainable environmental management in this epoch. Topic
