Sommario/riassunto

The papers in this volume present a colourful picture of the range of
 research currently being undertaken in the field of the history of
 linguistics, with contribution both from established scholars and from
 younger researchers. The volume is organised on a geographical basis,
 with sections devoted to a number of different traditions in linguistics
 world-wide. The opening section is concerned with a number of general
 and methodological topics - ranging from the notion of 'revolution' in
 linguistic historiography to the history of the study of ape language.
 The second section is devoted to
