Nota di contenuto	Cover; Copy Right; ACKNOWLEDGEMENTS; ABOUT THE AUTHOR; FOREWORD; CHAPTER ONE: Introduction; CHAPTER TWO: The Freudian superego; CHAPTER THREE: The formation and development of the system; CHAPTER FOUR: The object and the superego; CHAPTER FIVE: Pathology, splitting, and fragmentation in the system: the superego, the object, and the Holocaust; CHAPTER SIX: The superego, the self, and morality: contemporary ideas and critical approaches; REFERENCES
Sommario/riassunto	"The superego is one of those psychoanalytic concepts that has been assimilated into ordinary language, like repression, the unconscious and the Oedipus complex. Because it has become such a familiar notion, its complexity may not always be appreciated, nor the controversy that it can inspire. Its origins, for example, its timing in the course of development, whether and how it is influenced by gender all these questions and others have been the source of lively

disagreement. For psychoanalysts it is a fundamental concept of their discipline, but it belongs to a meta psychology whose value is often questioned, and opinions might vary on whether it remains truly alive as a generative, energising idea in contemporary psychoanalysis."--
