Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Cover; Copy Right; ACKNOWLEDGEMENTS; SERIES FOREWORD; ABOUT THE EDITORS AND CONTRIBUTORS; FOREWORD; MENTALIZING IN CHILD THERAPY; APPENDIX A: Intervention techniques; APPENDIX B: Glossary; REFERENCES
Sommario/riassunto	Mentalization-based child therapy, previously known as developmental therapy, is the latest branch on the psychoanalytic tree of knowledge. It comprises a number of techniques that address deficiencies in specific areas of psychological development. It aims to treat children whose development has come to a standstill. A combination of data from psychoanalysis, infant research, attachment research, and neurobiology was of decisive significance in reaching this point. It is becoming clear that neurobiological processes can be understood very well on the basis of psychoanalytic frameworks. These
