Sommario/riassunto	This volume is about the Anglophone creoles to be found on the Caribbean coast of Central America (Belize, Honduras, Nicaragua, Costa Rica, Panama), and its offshore islands (Providencia, San Andres and the Caymans) . The study of these Anglophone varieties is comparatively recent and based on current field work from Belize to Panama. One of the interesting features that emerges is the tentative map of diachronic and synchronic relationships among the Anglophone creoles of the Caribbean, as illustrated partly by the lexicon and partly by grammatical constructions.
