Schreurs -- Conflict and cooperation in the Mediterranean : MAP from 1975 to today / Gabriela Kutting -- Degradation and cooperation on the high seas : the case of international fisheries management / J. Samuel Barkin -- Conflict and cooperation along international rivers : scarcity, bargaining strategies, and negotiation / Shlomi Dinar -- Is oil worth fighting for? Evidence from three cases / Christopher J. Fettweis -- Responses to alternative forms of mineral scarcity : conflict and cooperation / Deborah J. Shields and Slavko V. Solar -- Resource scarcity and environmental degradation : implications for the development of international cooperation / Shlomi Dinar.

## Sommario/riassunto

Common wisdom holds that the Earth's dwindling natural resources and increasing environmental degradation will inevitably lead to inter-state conflict, and possibly even set off 'resource wars'. This book offers a different perspective on the links between environmental problems and inter-state conflict.
