Sommario/riassunto	One of the most important monuments of Imperial Rome and at the same time one of the most poorly understood, the Column of Marcus Aurelius has long stood in the shadow of the Column of Trajan. In The Column of Marcus Aurelius, Martin Beckmann makes a thorough study of the form, content, and meaning of this infrequently studied monument. Beckmann employs a new approach to the column, one that focuses on the process of its creation and construction, to uncover the

cultural significance of the column to the Romans of the late second century A.D. Using clues from ancient sources and from th
